Read the findings within the limits of the available data

- 1** Metrics are generated from a live monitoring snapshot for the selected project and reporting period.
- 2** Reach represents potential exposure and should not be interpreted as a unique-audience count.
- 3** Individual mentions do not include per-post reach, likes, comments, or shares. Featured coverage is representative, not performance-ranked.
- 4** Facebook, Instagram, and X may restrict post text or source links in API responses.
- 5** All available mention pages for this period were included.
